## STUMP AND ASSOCIATES

Stump and Associates assists U.S. companies in securing the world's brightest minds to meet the technological and business needs of domestic industries.

PREVIOUSLY NAMED TO THE TOP 50 LIST IN *OKLAHOMA Super Lawyers*®, T. Douglas Stump is once again recognized as one of Oklahoma's premier attorneys. Stump's 25 years of practice in immigration law affords him a unique ability to assist his clients in navigating what Stump calls "the ridiculously complex immigration system."

### EXPERTS IN IMMIGRATION LAW

Stump operates a full-service immigration law firm with offices in Oklahoma City and Tulsa. The firm's practice includes representation of Fortune 500 companies and multinational corporations in securing work visas for highly skilled foreign employees and assisting physicians, nurses, engineers and other professionals seeking immigration benefits. The firm is also well known for its aggressive federal court litigation and family immigration law practice.

The firm continues to grow as Stump's daughter Kelli and son Matt have joined the practice. "Kelli and Matt have significantly strengthened our firm's immigration litigation and deportation section," Stump says. Stump's firm has filed numerous mandamus actions in federal court, fighting the government's unreasonable delay of case processing.

### PROACTIVE NATIONAL LEADERSHIP

Stump currently serves as the National Secretary of the 11,500-member American Immigration Lawyers Association (AILA), the nation's largest organization of immigration attorneys. He is also the only Oklahoma attorney ever elected to serve on the AILA's executive committee. With immigration laws being modified every day, Stump proactively works to anticipate and promote change in immigration laws to afford his clients the most effective representation.

"Constantly changing immigration laws and overzealous government enforcement increases a company's cost of doing business, and makes U.S. businesses less competitive in international markets," Stump says. "This country is in an immigration stalemate that is aggravating an already crippled economy. We must work together to create an effective immigration system for the 21st century. We will never achieve workable enforcement without implementing a new system for immigration that also addresses the needs of U.S. employers."

Stump says that U.S. businesses can still be more successful than most international competitors, provided the United States is at the forefront in the development of new technology. His firm assists U.S. companies in securing the world's brightest minds to meet the technological and business needs of domestic industries.

Stump is also a senior editor for AILA publications and has co-edited 22 books on immigration law. He is frequently quoted in national publications and is listed in *The Best Lawyers in America*, *Who's Who of International Corporate Immigration Law* and is a member of IMMLAW, the national consortium of select immigration law firms.
